

NOTE:

Facilities such as public access, picnic and camp grounds are furnished for your enjoyment. Please use them with consideration for the next visitors. Swimming areas are unsupervised and do not have lifeguards. Boating, skiing, swimming, and fishing will be done at your own risk.

This map is furnished as general information only and is not to be used for locating property lines, hunting areas and other such matters.

Hunting areas and regulations may change each season. Check with the project office each season before starting to hunt. The management of fish and wildlife is being conducted in cooperation with the Texas Parks and Wildlife Department.

Additional information may be secured at project headquarters or by writing to:
